## **THE 4 APPROACH** FOR TOMORROW'S WORKPLACE AFTER PANDEMIC

#### LEADERSHIP OF THE NEW CULTURE

Leaders need to be aware of the changes and integrating new culture for pandemic prevention.

#### WORKPLACE DESIGN

The new principle of the new office design is like peoples shouting "You're too close to me, I need more space!"

#### PREVENTION

Several prevention activity will be the "new normal" in the workplace which will be an effective way to reduce the spread of the virus

#### TECHNOLOGY

What this crisis has taught us is that, with the right technology in place, then not everyone needs to be at the same place, at the same time.

## **THE 4 APPROACH** FOR TOMORROW'S WORKPLACE AFTER PANDEMIC

#### LEADERSHIP OF THE NEW CULTURE

- 1. Awareness of Changes in Culture
- 2. Working in an office could become a status symbol
- 3. Risk Mitigation
- 4. Non Contact Greetings
- 5. Budget for Prevention
- 6. Communication
- 7. Pre-entry training

#### PREVENTION

- 8. Physical Distancing
- 9. Shift Work Plan
- **10.Access Control**
- 11.Personnel Protective Equipment
- 12.Cleaning
- 13.Arrangements for Suspected or Confirmed COVID-19 Cases

#### WORKPLACE DESIGN

- 14. New Design Principles
- 15. P2 Office = Pandemic Prevention for Office
  - 15.1 Composition
  - 15.2 Detail
  - 15.3 Scale / Proportion
  - 15.4 Focal Point

#### TECHNOLOGY

- 16. Right Technology
- 17. No-Touch Equipment
- 18. Change of Meeting Needs
- 19. Emails & Chat
- 20. Digital Ink Signature
- 21. Attendance
- 22. Project Management Tools

# APPROACH #1

# LEADERSHIP OF THE NEW CULTURE

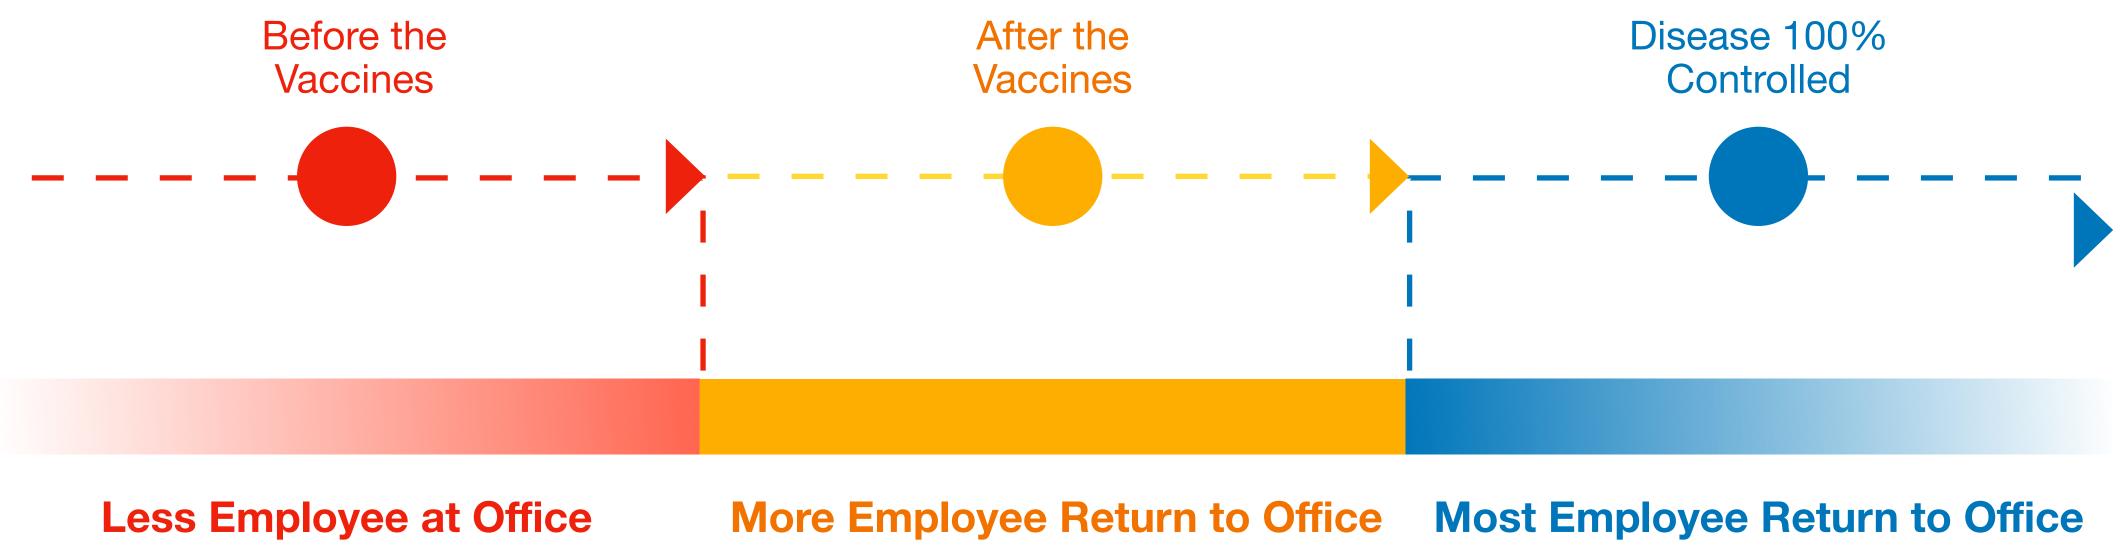

## **#1 Awareness of Changes in the Culture**

Leaders, Senior Management, and Business Owners are facing with biggest culture changes at workplace (the "New Normal").

Leaders must aware that "not everyone needs to be at the same place & same time". The world as we knew it will be different.

Awareness for Hygiene & Healthy living will be higher in the workplace and become common culture.

Timeline

### #2 Office Could Become a Brand & Culture Hub

During the Pandemic, more companies will split their time between "Going to Office" vs "Work From Home".

With more people working remotely, companies may open regional hubs or provide access to co-working spaces for hold meetings, corporate culture events, and bring clients, with individual work taking place at home or in other smaller satellite locations.

## **#3 Risk Mitigation**

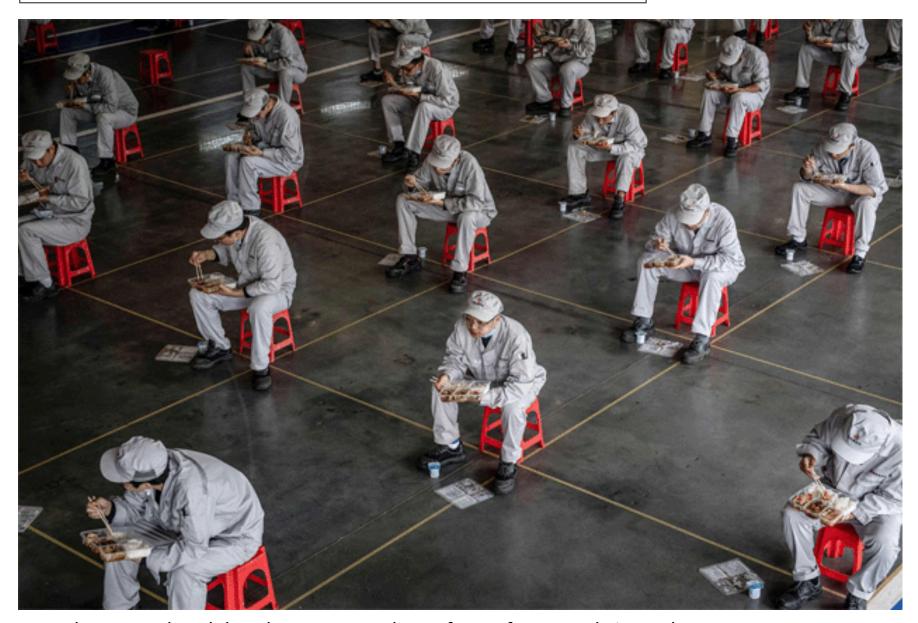

Prevention and mitigation of COVID-19 in workplaces requires effective processes of risk assessment and risk management.

There are several tool offers a simple and collaborative approach to assess COVID-19 risks as a step to take measures to protect the safety and health of workers, starting from **Policy**, **Risk Assessment**, **Mitigation**, and **Arrangements for Positive Cases**. International Labour Organization

#### Prevention and Mitigation of COVID-19 at Work ACTION CHECKLIST

#### Date: 09/04/2020

This checklist is a management tool to implement practical actions to mitigate the spread of COVID-19 pandemic at the workplace. The successful implementation of the tool is dependent on the cooperation between employers, supervisors and workers to make positive changes in the workplace to improve response to and preparedness for COVID-19. Employers should involve workplace safety and health committees or safety delegates in the process.

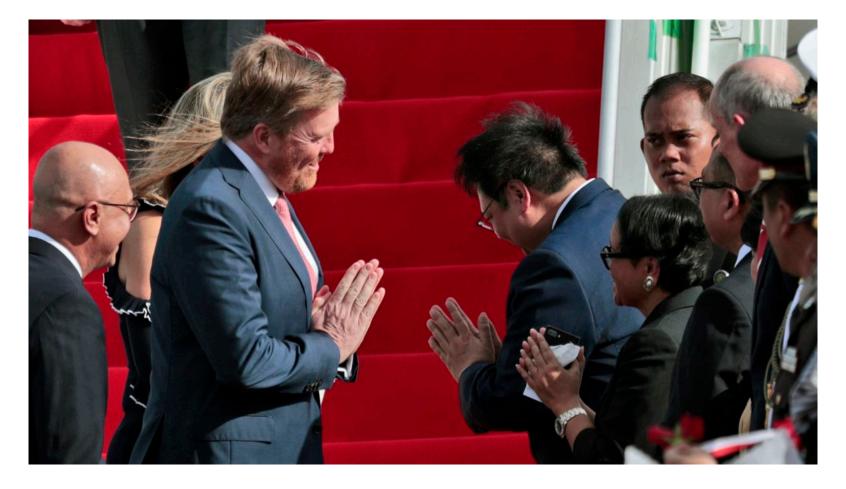

Employees on lunch break at an auto plant of Dongfeng Honda in Wuhan. Image: AFP <u>https://economictimes.indiatimes.com/news/international/business/what-returning-to-work-</u>will-look-like-in-offices-cafes-and-factories-around-the-world/articleshow/75215529.cms

### **#4 Non-Contact Greetings**

Non-contact greetings (as opposed to the handshake) will be the new normal for the business courtesy.

King Willem-Alexander of the Netherlands, center left, performs namaste greeting as he is introduced to Indonesian Foreign Minister Retno Marsudi, center right front, upon arrival in Jakarta, Indonesia, Monday, March 9, 2020. (AP Photo/Dita Alangkara).

### **#5 Budget for Prevention**

equipment (PPE), technology, cleaning services, and even workplace re-design.

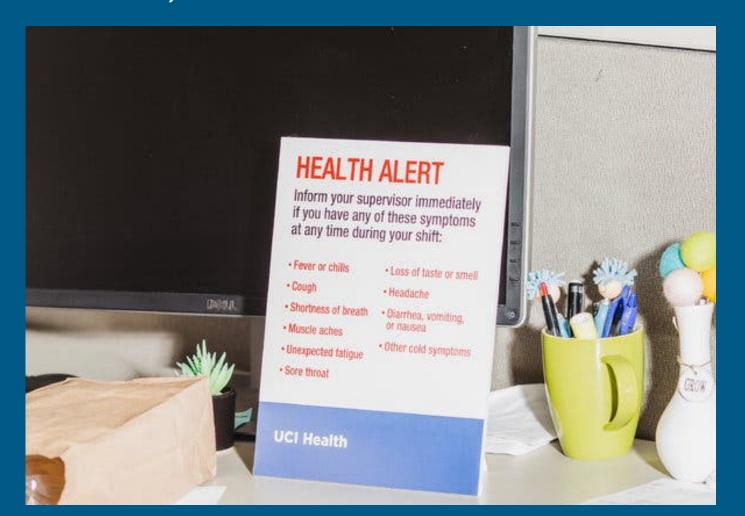

Management will also pay attention in providing additional budget for prevention activities such as personal protective

### **#6 Communication**

Good practice of communication also play important role in reducing the spread of the virus.

Display posters promoting respiratory hygiene, and we can combine this with other communication measures such as guidance from occupational health and safety officers, briefing at meetings, and information on the intranet, etc.

Tomorrow's Workplace During Pandemic I 11

#### Wash your hands

If your hands are not

hand rub or soap and

visibly dirty,

water

Wash your hands with soap and running water when hands are visibly dirty

World Health Organization

#### Protect yourself and others from getting sick Wash your hands

• after coughing or sneezing

- before, during and after you prepare food
- before eating
- after toilet use
- when hands are visibly dirty
- after handling animals or animal waste

#### **Protect others from getting sick**

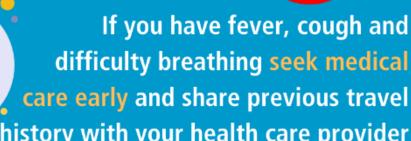

Avoid close contact when you are experiencing cough and fever

World Health Organization

Avoid spitting in public

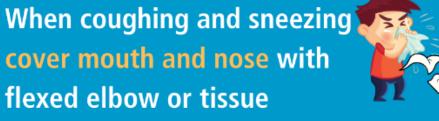

difficulty breathing seek medical care early and share previous travel history with your health care provider

**Protect others from getting sick** 

Throw tissue into closed bin immediately after use

Clean hands with alcohol-based hand rub or soap and water after coughing or sneezing and when caring for the sick

World Health Organization

training (or online town hall) to share with to the workplace.

# APPROACH #2

## PREVENTION

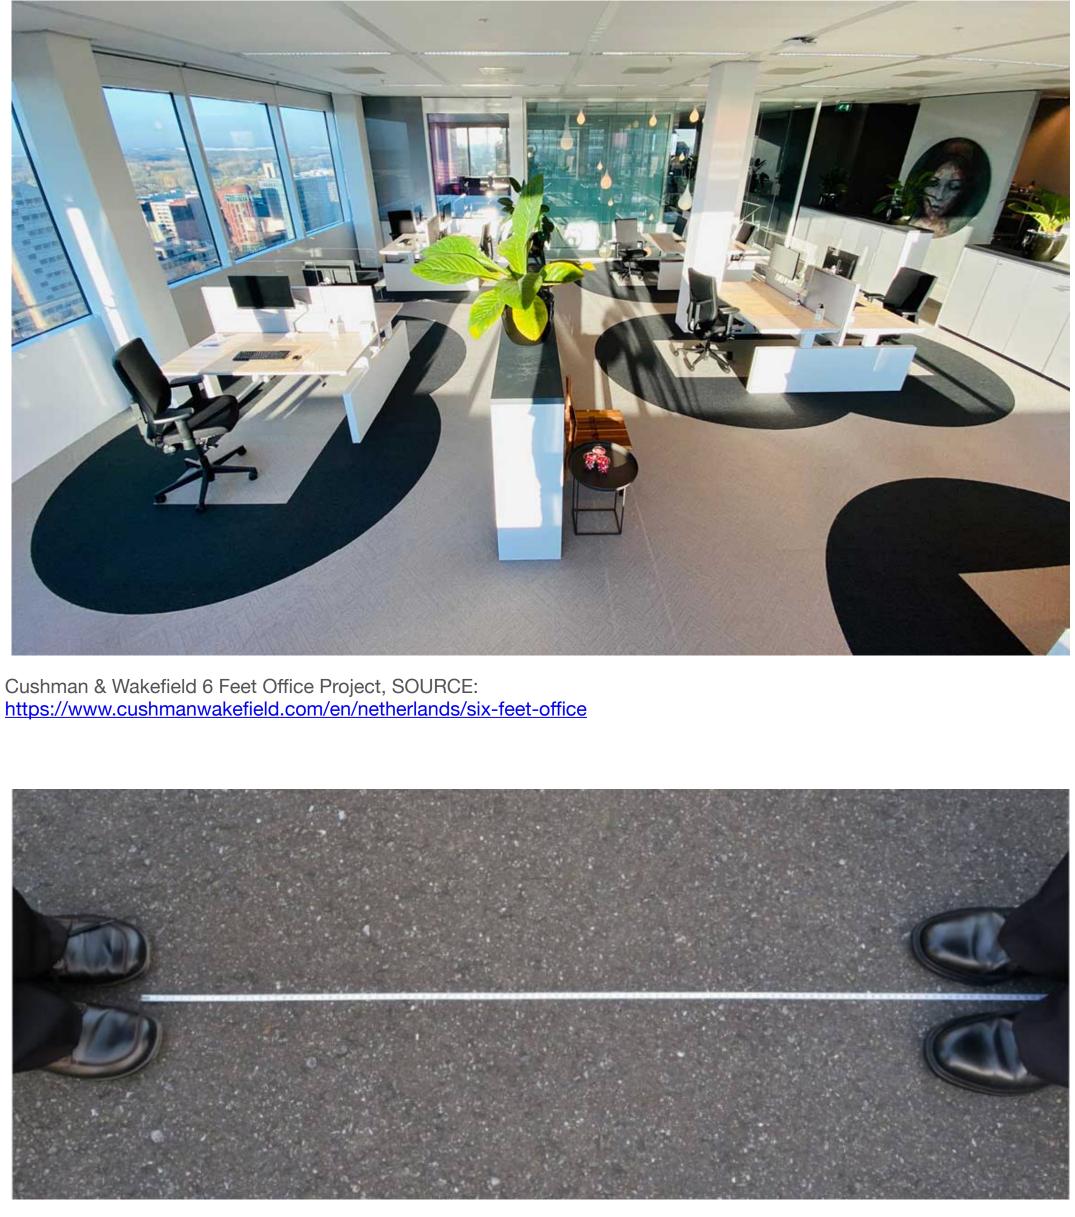

### **#8 Physical Distancing**

To reduce the risk of exposure to the virus at the workplace, we are required to organize work in a way to allow for physical distancing of at least 2 meters (6 feet) from other people.

Avoid face-to-face meetings, giving preferences to phone calls, email, or virtual meetings.

If you need to organize meetings, organize the space to allow for physical distancing.

Cushman & Wakefield 6 Feet Office Project, SOURCE:

### **#9 Shift Work Plan**

For organization that still need to meet among colleagues, they can consider 3 or 4 days a week at office, and 1- or 2days' Work from Home (WFH).

Even the lunch times could become a thing, as employer try to thin crowds in cafeterias. It could be like in your school, starting to lunch at 11:00 and going until 14:00, as people's lunch time is scheduled by person.

An artist's rendering of what a new, physically distanced workplace might look like. In addition to greater distance between desks, the post-pandemic workplace could include mandatory masks, shift work and lineups to take crowd-free elevators or get a temperature check. (Gensler) SOURCE:

In a photo taken on April 9, employees in the cafeteria at the Hyundai Card company offices in Seoul sit behind protective screens as part of preventative measures against COVID-19. (Ed Jones/AFP/Getty Images)SOURCE: https://www.cbc.ca/news/business/post-pandemic-offices-1.5551308

### **#10 Access Control**

You will also face with several delivery & visitor policies for physical distancing.

Temperature checks will be mandatory exercise. For you who work in the building, you are not going to be able to enter buildings very fast.

## **#11 Personnel Protective Equipment**

Workplace are required to provide appropriate <u>facemasks</u> and make available <u>paper tissues</u> at worksites (for use by those who develop cough along with closed bins for hygienically disposing them).

### **#12 Cleaning**

Workplace are required to provide hand wash facility with soap and water, hand sanitizers, disinfection, and promote a culture of hand washing. Regularly clean the frequently touched surfaces including rest rooms.

In addition, self clean desk policy will be the new habit.

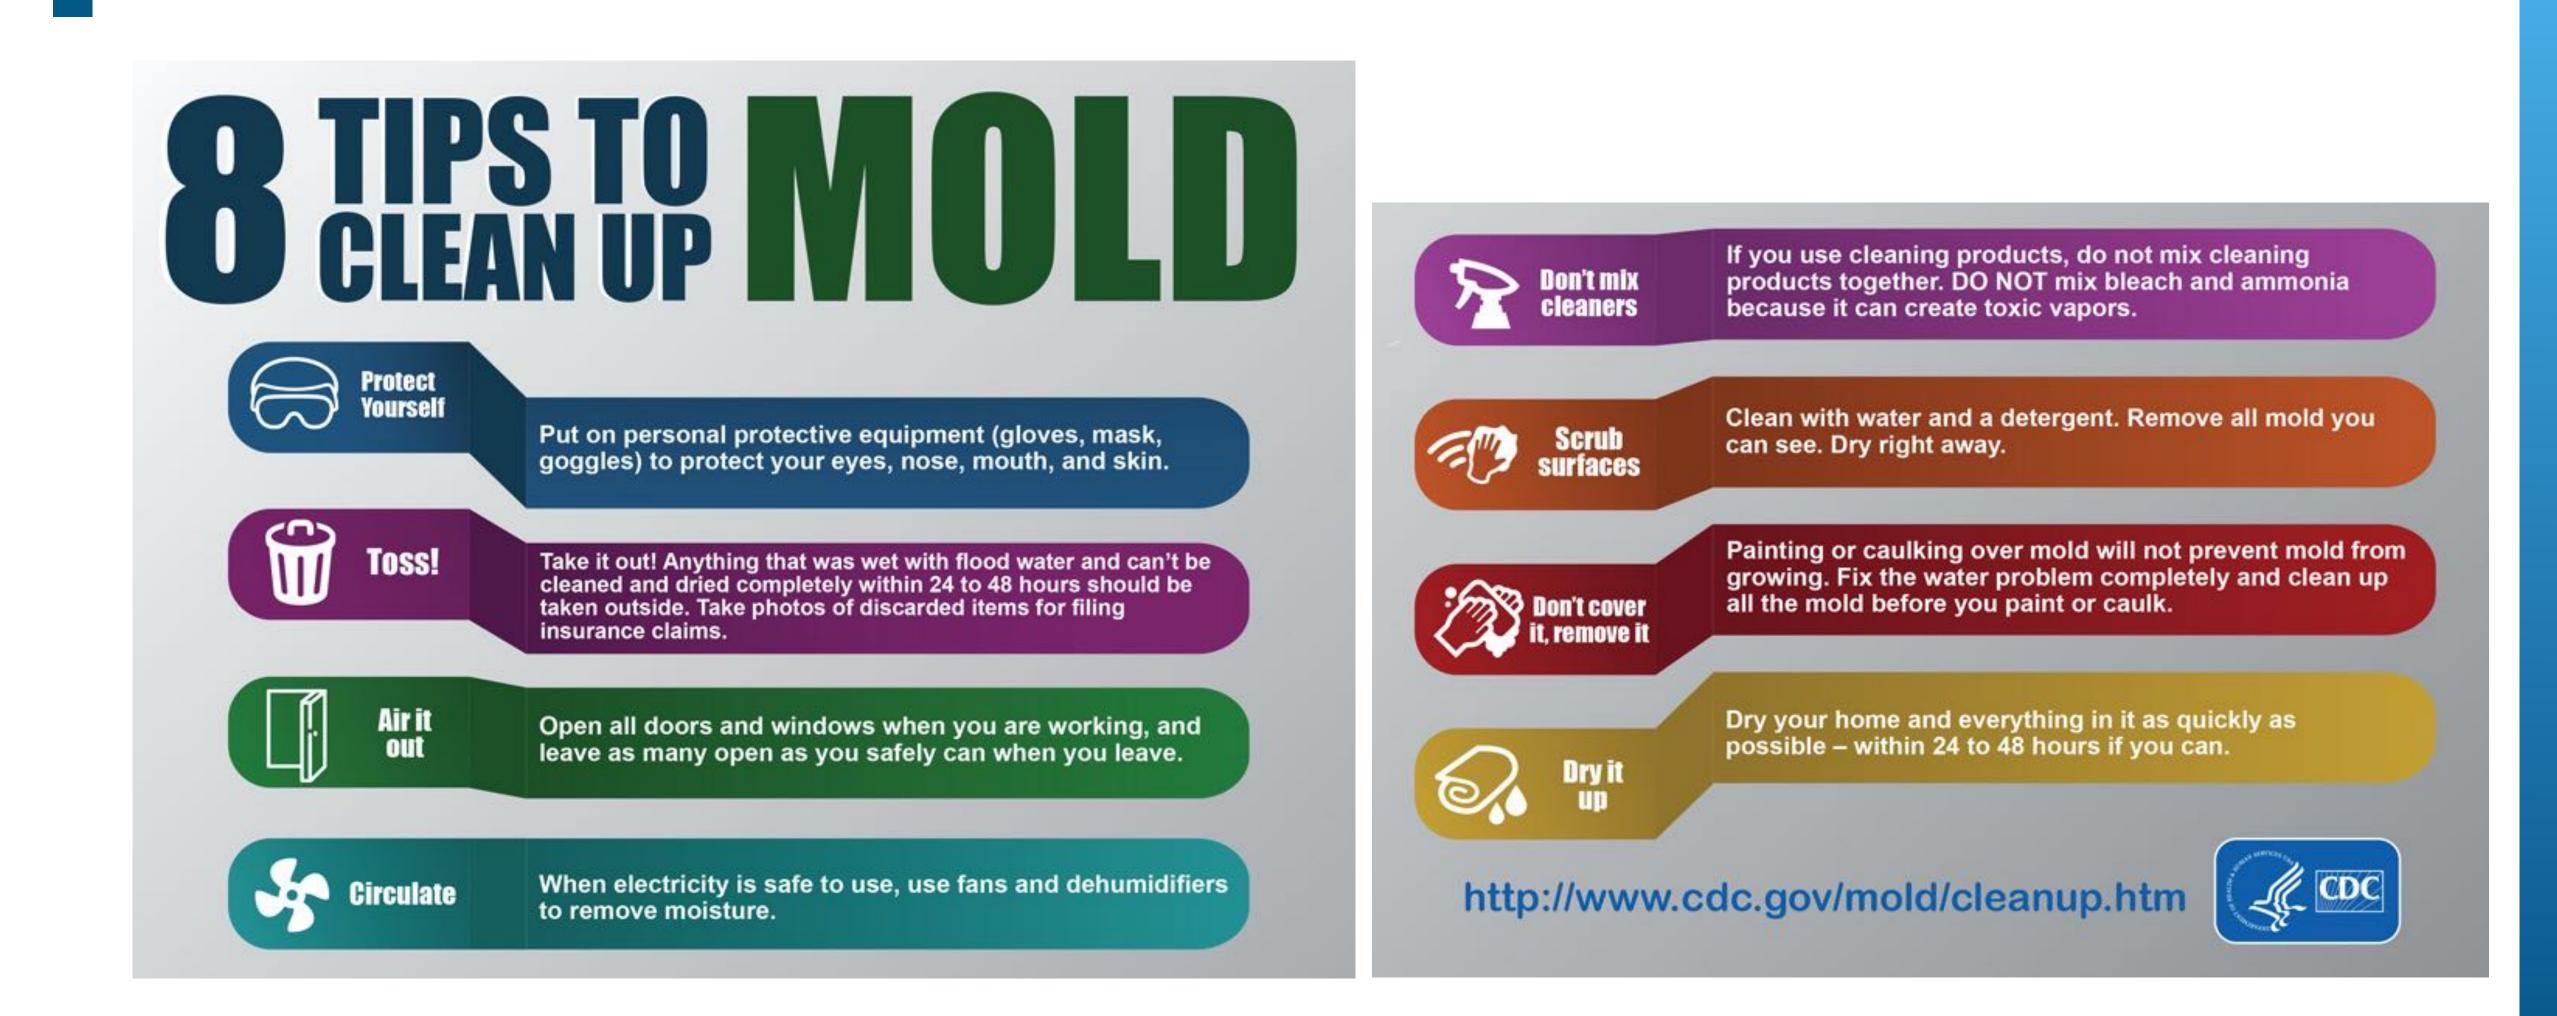

### **#12 Cleaning**

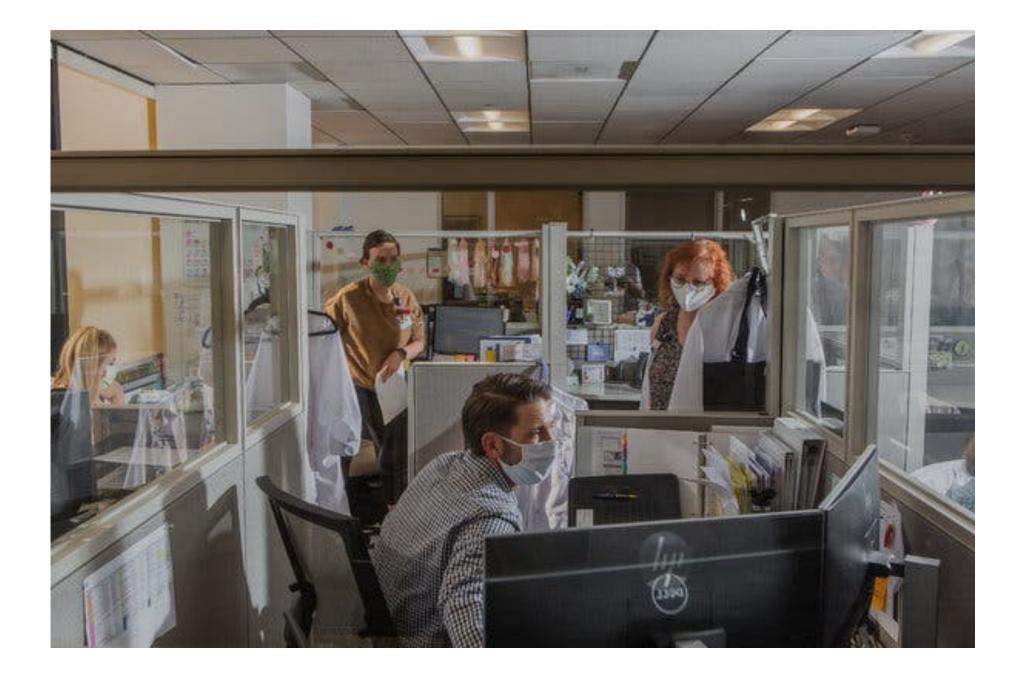

#13 Arrangements for Suspected or Confirmed COVID-19 Cases

Leaders need to encourage employees with suspected symptoms of COVID-19 <u>not to come to the</u> <u>workplace</u>. Follow the guidance of the local authorities, call the healthcare provider, and arrange isolation.

Leaders also need to emphasize that peoples need to be **honest** if feels sick, and need to declare to all peoples around you.

As a new culture, if your friend infected with flu, then you **don't need to look bad** at him/her. You need to support them in physical distancing.

# APPROACH #3

# WORKPLACE DESIGN

## **#14 New Design Principles**

The "P2-Office = Pandemic Prevention for Office" is stand as Pandemic Prevention for Office. It is our conceptual idea of a new office design to Prevent the Pandemic.

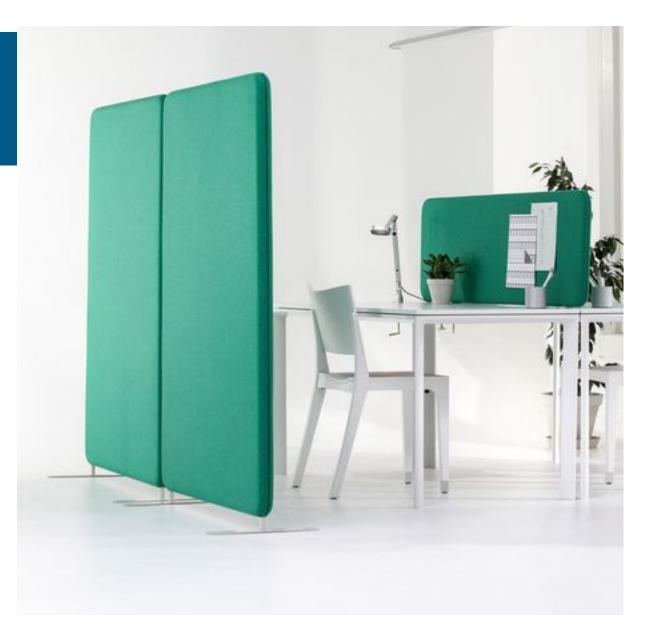

**P2-Office = Pandemic Prevention for Office** is here to help businesses prepare for their staffs to return to the office and maintain social distancing while creating an effective workplace design.

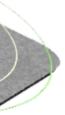

**P2-Office = Pandemic Prevention for Office** isn't going away any time soon and is helping businesses adjust to a new normal.

Tomorrow's Workplace During Pandemic I 22

#### **Needs of Space**

#### **Needs of Protection**

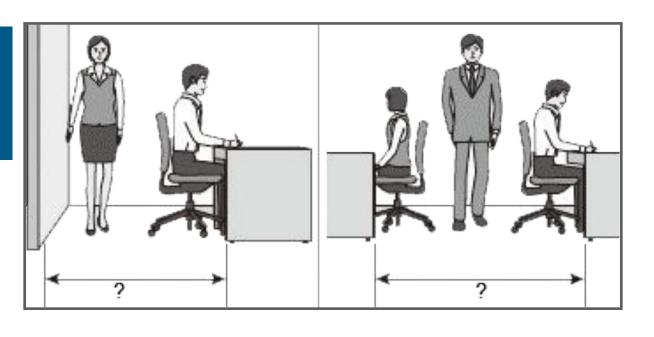

#### 1. Composition

- Circulation Flow
- Flooring Pattern
- Isolation Room
- Workstation Configuration

#### 3. Scale/Proportion

- Workstation Proportion
- Density Reduction

#### 2. Details

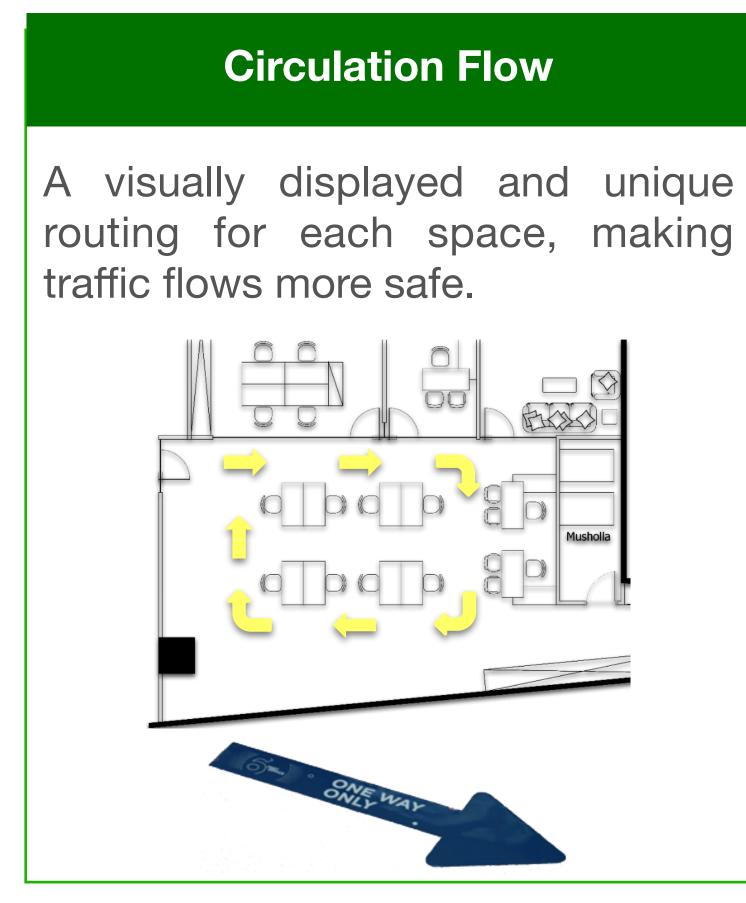

#### **4. Vocal Point**

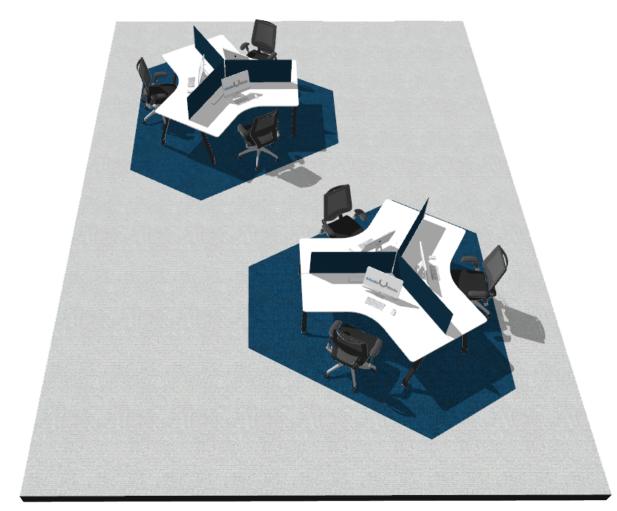

#### **15.1 Composition**

Workplace composition approach will re-consider the process of space planning and conduct an analysis of working environment in the field of pandemic prevention and any other opportunities for improvement.

#### **Flooring Pattern**

Flooring pattern represent each space in the office. Different color and pattern for every different zone and function.

Tomorrow's Workplace During Pandemicl 24

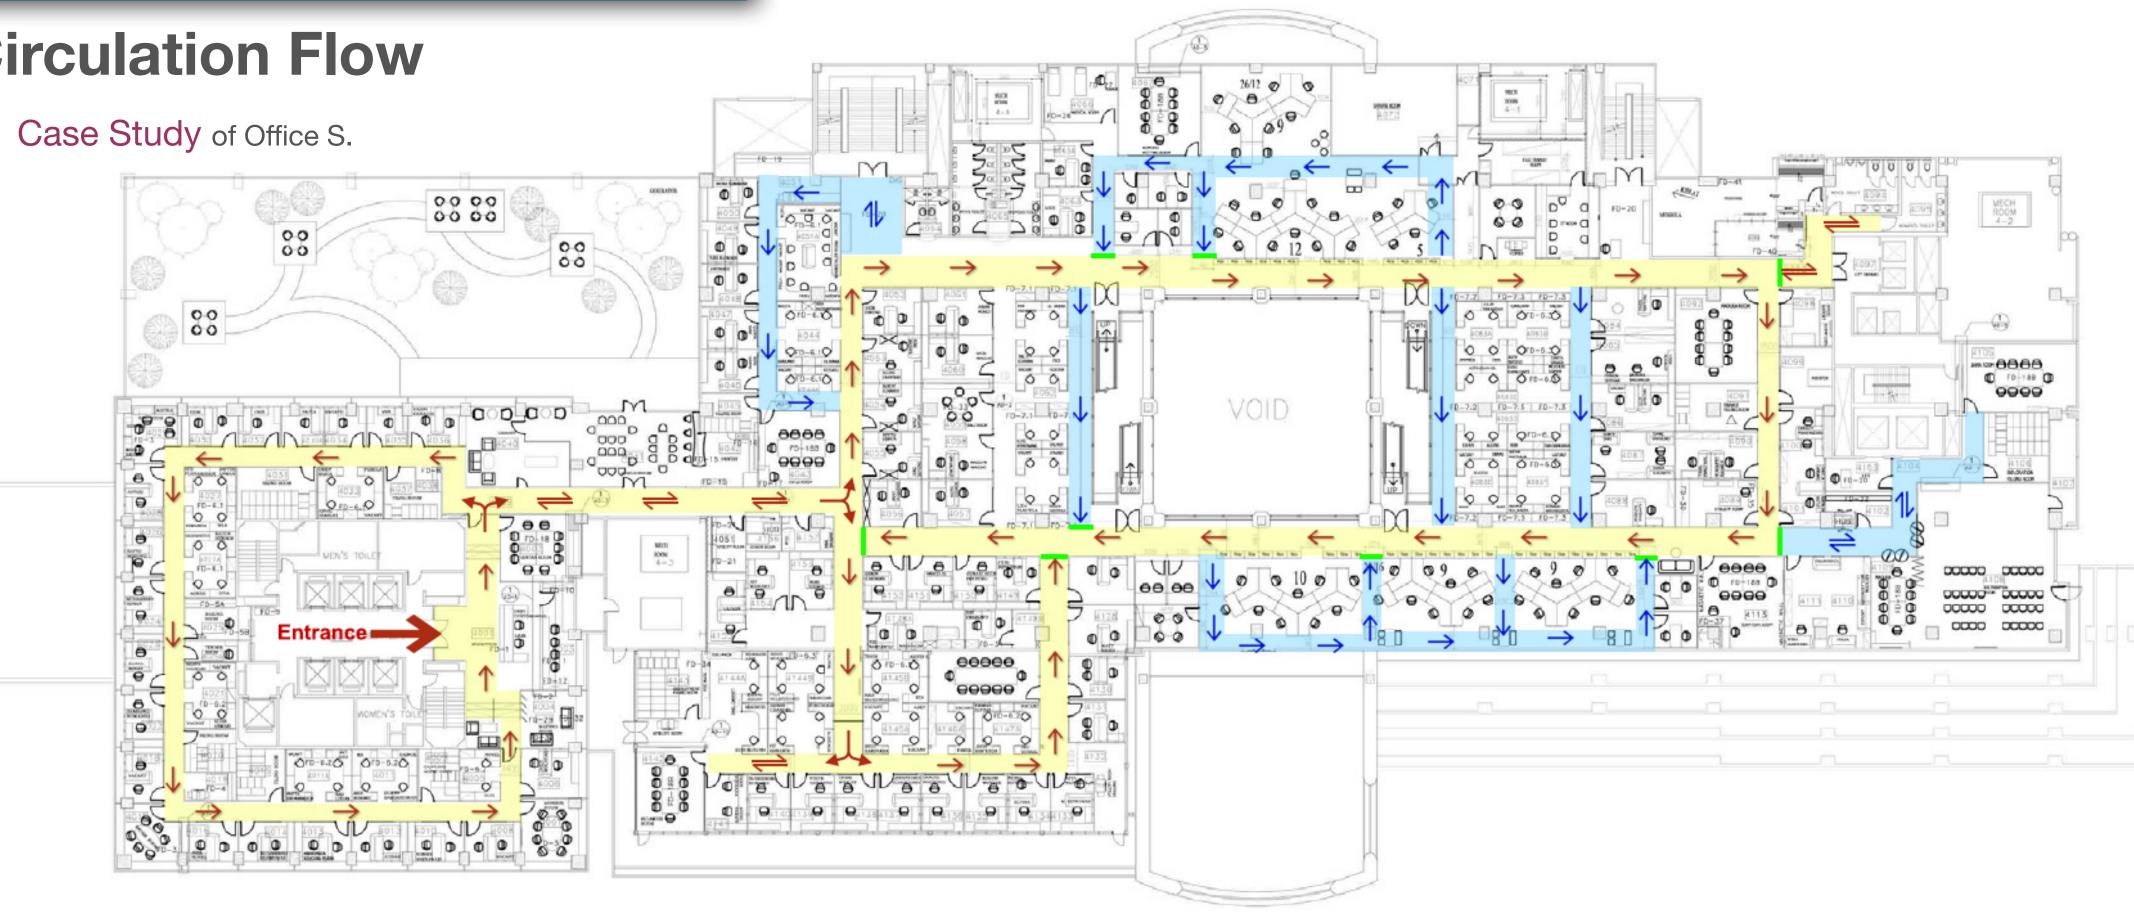

#### **Isolation Room**

During & After pandemic, every office will require an isolation room, just in case one of the employees suspected infected by the virus.

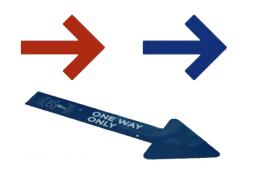

#### **15.1 Circulation Flow**

### #15 P2 Office **Pandemic Prevention for Office**

### **15.4 Focal Point**

one and another to create a safe and harmony workplace environment.

Tomorrow's Workplace During Pandemic I 44

### Focal Point approach is about giving particular importance and value into an area or object. In the workplace, it is about the aesthetic and design story of the office. The composition, proportion, and the detail have to rhyme with

# APPROACH #4

# TECHNOLOGY

# **#16 Right Technology**

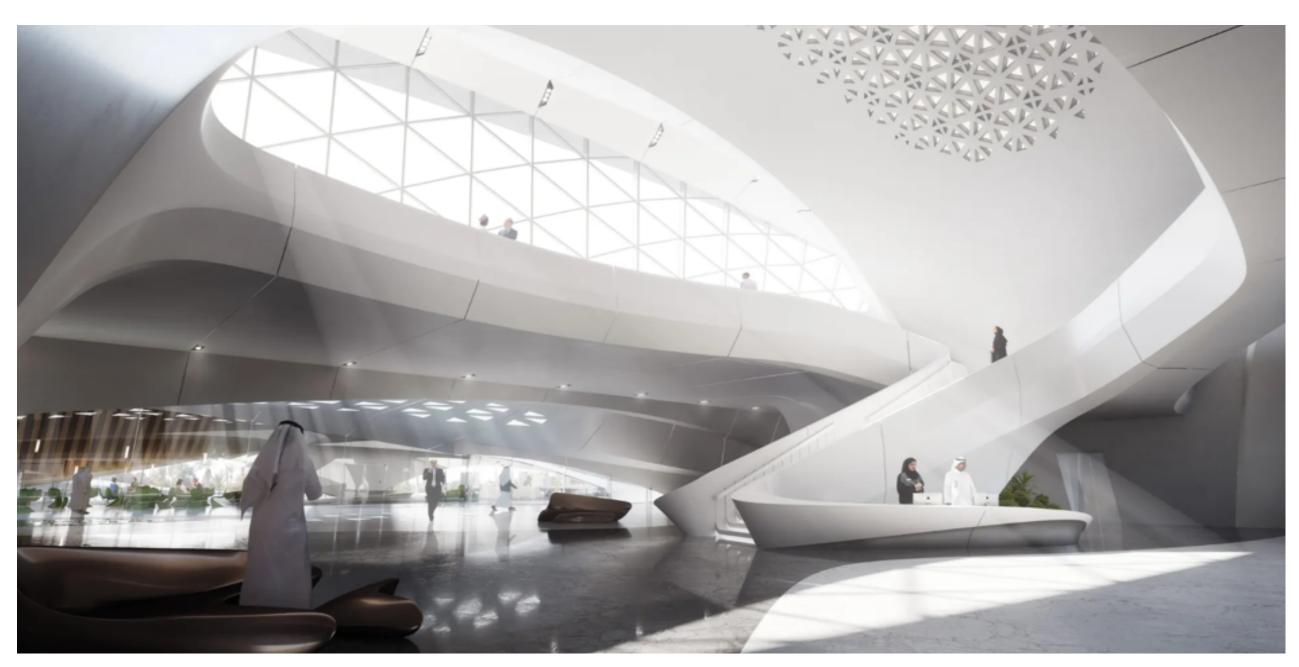

What this crisis has taught us is that, with the right technology in place, then "not everyone needs to be at the same place, at the same time".

# **#17 No-Touch Equipment**

No-touch equipment will be a new way trending in equipment provision.

Equipment such as door, lifts, coffee machine, dustbin, exit button, can be open using motion sensors, facial recognition, or even smartphone.

Zaha Hadid Architects' new headquarters for the Bee'ah waste management company in Sharjah, UAE may be a glimpse of the future. It is packed with what ZHA calls 'contactless pathways', whereby employees rarely need to touch the building with their hands. Office doors open automatically using motion sensors and facial recognition, while lifts - and even a coffee - can be ordered from a smartphone. SOURCE: https://www.weforum.org/agenda/2020/04/covid19-coronavirus-change-officework-homeworking-remote-design/

Touchless Motion Sensor Door

**Touchless Motion Sensor Dustbin** 

Touchless Exit Button

**Touchless Water Faucet** 

**Touchless Toilet** 

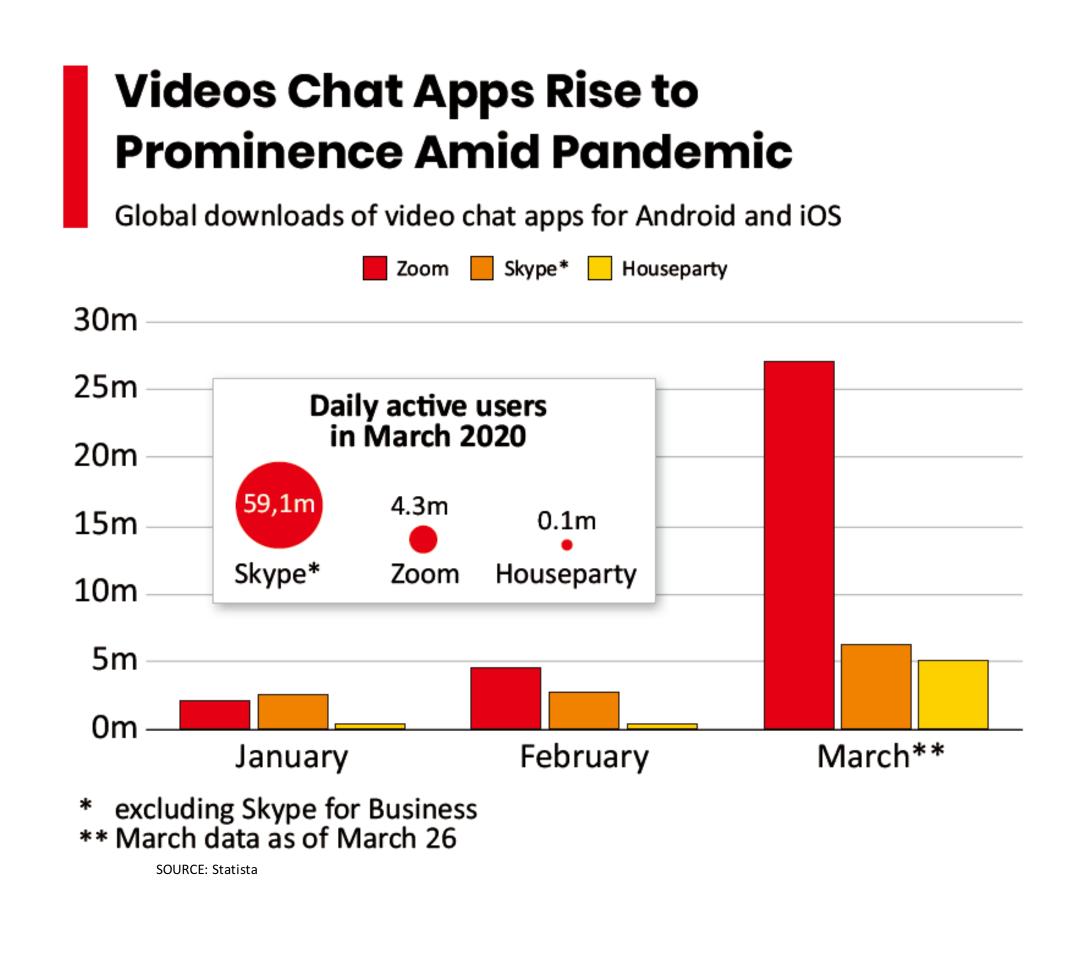

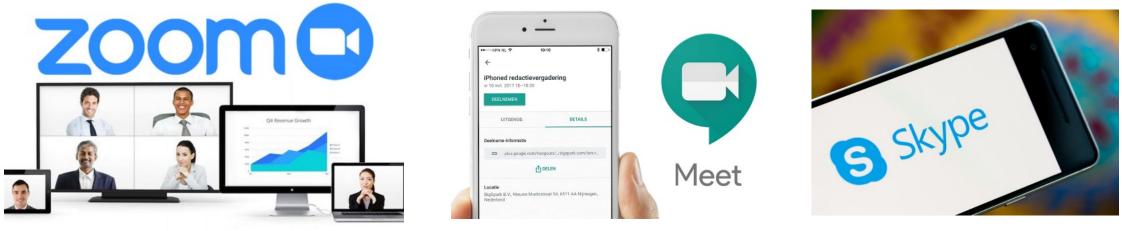

## #18 Changes in Meeting Needs

Previously, there are some "*must meet*" rules from clients that the service provider can't change due to their exclusivity as clients (i.e. pre-bid meetings, trainings, negotiation, approval, introduction meeting, interview, or even audits).

All of this agenda needs face-to-face meeting (which sometimes really time consuming).

Tomorrow we will see that **most of this agenda is extremely reduced** and can be done electronically via video conference application.

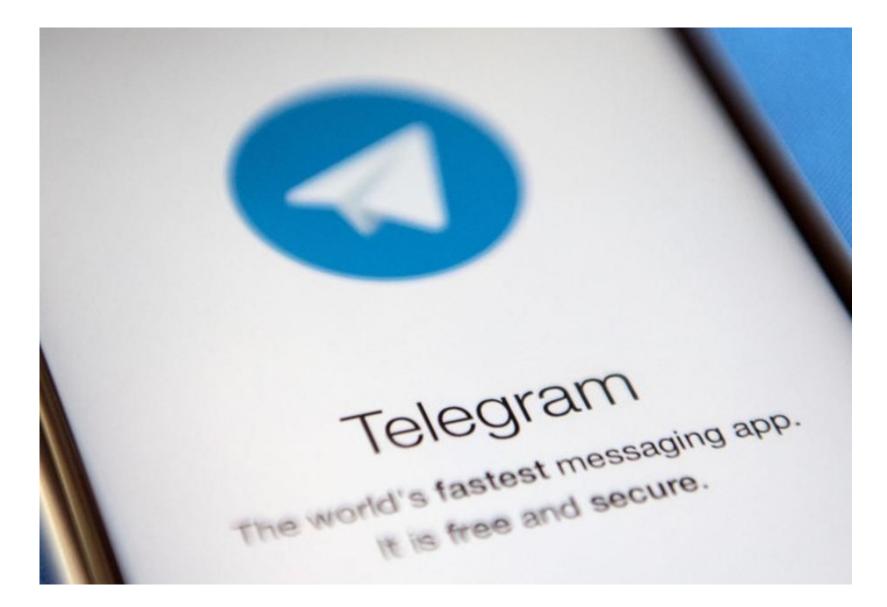

## #19 Emails & Chat

Yesterday, there are some organization & peoples that still need to meet in person just to deliver a simple invoice, making an approval, submitting a proposal, or maybe requesting something.

Tomorrow, peoples will **accept email & chat as formal business communication** with customers and stakeholders.
